

Strategic Development Site Daventry

Daventry is set to double in size by the year 2021 and with it great demands will be placed upon the existing infrastructure.

SMA has been commissioned by Croudace Strategic Project Limited to provide technical support on its proposals for a major urban extension for circa 4000 new dwellings, secondary and primary schools, employment, retail and recreational facilities including the realignment of 2.5km of the B4036.

SMA has been advising Croudace upon the transportation and infrastructure requirements and contributing towards the Environmental Statement and technical assessments that have been undertaken to support a major planning application.

SMA provide the following services

- Transportation
- Infrastructure
- Civil Engineering
- Structures
- Water and Environment
- Project Management
